RE: 40 CFR Part 60 Subpart ZZZZZ Reporting Period June 30, 2015 – December 31, 2015  
PCC Structurals Inc. SSBO foundry

To Whom It May Concern:

Pursuant to the Area Source Iron and Steel Foundry NESHAP, I am submitting the following semi-annual report. The affected source meets the definition of a small foundry and has implemented a metallic scrap management program and meets the binder formulation requirements as specified in 40 CFR 63, Subpart ZZZZZ.

Owner: PCC Structurals Inc. 4600 SE Harney Drive, Portland OR 97206  
→ Source: SSBO 13340 SE 84th Avenue, Clackamas OR 97015

This is our written notice that the annual metal melt production continues to remain less than 20,000 tons.

During the reporting period, this facility operated in accordance with written material specifications for metallic scrap according to § 63.10885(a)(1).

During the reporting period, this facility complied with the requirements for scrap that does not contain motor vehicle scrap in accordance with § 63.10885(b)(4).

During the reporting period, this facility complied with the no methanol requirement for the catalyst portion of each binder chemical formulation for a furfuryl alcohol warm box mold or core making line according to § 63.10886.

During the reporting period, this facility complied with the mercury management practices requirements in accordance with § 63.10885(b), § 63.10881(a)(2), § 63.10895(a).

I certify that, based on information and belief formed after reasonable inquiry, the statements and information in this letter are true accurate and complete.

Sincerely,  
For PCC Structurals Inc

RE: 40 CFR Part 60 Subpart ZZZZZ  
PCC Structurals Inc SSBO foundry

Received  
JAN 31 2013  
Office Of Air, Waste  
And Toxics

To Whom It May Concern:

Pursuant to the Area Source Iron and Steel Foundry NESHAP, I am submitting the following semi-annual report. The affected source meets the definition of a small foundry and has implemented a metallic scrap management program and meets the binder formulation requirements as specified in 40 CFR 63, Subpart ZZZZZ.

Owner:	PCC Structurals Inc.	4600 SE Harney Drive, Portland OR 97206
Source:	SSBO	13340 SE 84th Avenue, Clackamas OR 97015

This is our written notice that the annual metal melt production continues to remain less than 20,000 tons.

During the reporting period, this facility operated in accordance with written material specifications for metallic scrap according to § 63.10885(a)(1).

During the reporting period, this facility complied with the requirements for scrap that does not contain motor vehicle scrap in accordance with § 63.10885(b)(4).

During the reporting period, this facility complied with the no methanol requirement for the catalyst portion of each binder chemical formulation for a furfuryl alcohol warm box mold or core making line according to § 63.10886.

During the reporting period, this facility complied with the mercury management practices requirements in accordance with § 63.10885(b), § 63.10881(a)(2), § 63.10895(a).

I certify that, based on information and belief formed after reasonable inquiry, the statements and information in this letter are true accurate and complete.

Sincerely,  
For PCC Structurals Inc

## Notification of Size Classification

### National Emission Standards for Hazardous Air Pollutants for Iron and Steel Foundries

40 CFR Part 63 Subpart ZZZZZ

(<http://edocket.access.gpo.gov/2008/pdf/E7-24836.pdf>)

1. Complete this section for each production facility. Make additional copies as necessary.

OWNER/OPERATOR PCC Schlosser			
COMPANY NAME PCC Schlosser			
FACILITY ADDRESS 345 NE Hemlock Ave			
CITY Redmond	STATE OR	ZIP CODE 97756	COUNTY Deschutes
PLANT CONTACT, NAME AND TITLE Dave Bransky			TELEPHONE NUMBER 541 548 0766
MAILING ADDRESS (if different from above) Same	CITY Same	STATE Same	ZIP CODE Same
PRIMARY SIC CODE AND NAICS CODE 3369 ; 331528		E-MAIL ADDRESS dbransky@pccstructural5.com	

2. Do you own or operate an iron and steel foundry? \_\_\_ Yes ☒ No

If No, please go directly to part 5 and submit this form to EPA and DEQ.

If yes, is the foundry large or small? \_\_\_ Large ☒ Small

A large foundry has an annual metal melt production greater than 20,000 tons (for an existing affected source) or greater than 10,000 tons (for a new affected source). Follow the procedures in the rule to determine your initial size classification or to change your size classification.

3. Briefly describe the nature, size, design, and method of operation of the source.

4. Briefly describe the types of emission points within the affected source and the types of hazardous air pollutants emitted.

5. CERTIFICATION

I certify that, based on information and belief formed after reasonable inquiry, the statements and information in this report and the supporting enclosures are true, accurate and complete.

Print the name and title of the "Responsible Official\*" for the plant:

<u>Dave Murray</u>	<u>Manager, Environmental Affairs</u>	<u>503-777-3881</u>
Name of Responsible Official (print or type)	Title	Phone Number

\*A "Responsible Official" can be:

- The president, vice-president, secretary, or treasurer of the company who owns the plant
- The owner of the plant
- The plant engineer or supervisor
- A government official if the plant is owned by the Federal, State, City, or County government
- A ranking military officer if the plant is located on a military base

[Signature]  
Signature of "Responsible Official"

<sup>b</sup> Chromium (Cr), nickel (Ni), lead (Pb), beryllium (Be), cadmium (Cd), and manganese (Mn).

## Initial Notification

**National Emission Standards for Hazardous Air Pollutants:**  
**Area Source Aluminum, Copper, and Other Nonferrous Foundries**  
**40 CFR 63 subpart ZZZZZZ**

### Section 1. Facility Information

☒ Yes, I am subject to 40 CFR Part 63 subpart ZZZZZZ National Emission Standards for Hazardous Air Pollutants: Area Source Aluminum, Copper, and Other Nonferrous Foundries

Source category and NAICS code(s) Small Area Source, NAICS 331528-Other nonferrous foundries

Compliance Date: ☒ Existing source: June 27, 2011 ☐ New source: \_\_\_\_\_  
(Date of startup)

☐ No, I am NOT subject to 40 CFR Part 63 subpart ZZZZZZ. Reason not applicable:

☐ Major source of HAP emissions

☐ Annual production < 600 tons per year (TPY) based on year: \_\_\_\_\_

☐ None of the materials melted contain  $\geq 0.1\%$  Cr, Ni, Pb, Be, Cd, or  $\geq 1.0\%$  Mn<sup>b</sup>

☐ Other: \_\_\_\_\_

*If you checked the "No" box above, please complete only Section 1 of this form and then proceed directly to Section 3 of this form (skip Section 2).*

RE: 40 CFR Part 60 Subpart ZZZZZ  
PCC Structurals Inc SSBO foundry

To Whom It May Concern:

Pursuant to the Area Source Iron and Steel Foundry NESHAP, I am submitting the following semi-annual report. The affected source meets the definition of a small foundry and has implemented a metallic scrap management program and meets the binder formulation requirements as specified in 40 CFR 63, Subpart ZZZZZ.

Owner:	PCC Structurals Inc.	4600 SE Harney Drive, Portland OR 97206
Source:	SSBO	13340 SE 84th Avenue, Clackamas OR 97015

This is our written notice that the annual metal melt production continues to remain less than 20,000 tons.

During the reporting period, this facility operated in accordance with written material specifications for metallic scrap according to § 63.10885(a)(1).

During the reporting period, this facility complied with the requirements for scrap that does not contain motor vehicle scrap in accordance with § 63.10885(b)(4).

During the reporting period, this facility complied with the no methanol requirement for the catalyst portion of each binder chemical formulation for a furfuryl alcohol warm box mold or core making line according to § 63.10886.

During the reporting period, this facility complied with the mercury management practices requirements in accordance with § 63.10885(b), § 63.10881(a)(2), § 63.10895(a).

I certify that, based on information and belief formed after reasonable inquiry, the statements and information in this letter are true accurate and complete.

Sincerely,  
For PCC Structurals Inc
